PROFESSIONAL SUMMARY

Passionate junior iOS developer with a love for learning and a knack for problem solving. More than one year of mobile app development experience with Swift.

WORK EXPERIENCE

iOS Developer   Apr 2022 - Present
Maib (Finance) • Chisinau, Moldova

I worked on an app for the bank, gained extensive experience in working in a team, and experience in using such development methodologies as Waterfall Model and Agile Model. Working with different APIs and services helped me improve my skills. Code reviews from senior developers improved the quality and readability of my code. Tools: Gitlab, Firebase, Slack, Xcode, Sourcetree, Figma. Technology: Swift, UIKit, SwiftUI, Protobuf, RealmDatabase.

- bug fix
- development UI
- connection API
- fix merge conflict
- merge request

iOS Developer   Sep 2021 - Mar 2022
iThinkers (FoodTech) • Kyiv, Ukraine

Most of the work was fixing bugs in old and new projects. There was the experience with the network, integration of external API. I was also involved in the build configuration for new projects, sending to the App Store Connect, uploading to the repository to Bitbucket. Use tools: Bitbucket, Jira, Firebase, Postman, App Store Connect.

- UI bug fix.
- Setting build configuration.
- Setting Firebase.
- Displaying new data in the application.
- Upgrading older versions of customer applications.

EDUCATION

Engineering of software   Sep 2002 - May 2005
Classic Private University • Zaporizhzhia, Ukraine

Department of Information Technologies and Design. Software engineering. Professional qualification – software development and testing specialist.
